

QuikStrip™ Fastener Overview

PipeSak® Pipeline Products

DESCRIPTION

- QuikStrip fasteners are a nylon tape with polypropylene hooks specifically designed for low or long cycle use with RockStop™ rockshield.
- When used with RockStop non-woven pipeline wrap, QuikStrip exhibits extremely high shear and peel strength.
- QuikStrip are usable in both semi-permanent and permanent applications.
- Available in length of 24” (61 cm) x widths of 4” (10 cm) strips.

ADVANTAGES

- High shear and peel strength.
- Long lasting, yet removable adhesion.

QuikStrip™ Fastener Technical Data	
Description	Values
Width Tolerance	+/- 0.0625” (1.6mm)
Material	Nylon Base w/ Polypropylene Hooks
Hook Height	0.05” (1.3mm)
Hook Density	540 / in ² (84 / cm ²)
Weight	0.6 lb / yd ² (320 g/m ²)
Shear Strength ¹	69 psi (476 kPa)
Peel Strength ¹	8.74 lb / in (1.5 kN/m)

¹ Average results with standard loop tape
